Reichsbahn coal situation.

8. Coal requirements for the month of October for the DER Railroads were reduced 10,000 tons EE (Briketteinheit)*. Deliveries of coal to the offices for coal distribution (Kontore fuer Kohleverteilung) in the DER were also reduced. The Oberlausitz Trade Office (Oberlausitzer Handelskontor) and the Central German Trade Office (Litteldeutsches Handelskontor) each received a cut of 30,000 tons EE. In order to offset these cuts, however, they were to receive delivery of 40,000 tons of Ruhr coal.

25X1 * Comment: Possibly a briquette measure.
